

RVESCUE CONSULTING SERVICES

Let RVESCUE assist your service in the startup training for the NJ BLS roll out of emsCharts. Below are a few of the services we can offer your department:

TRAINING

*** Intro to emsCharts**

- Provide basic introductory training in a classroom setting, to get your membership familiar with the concept and workings of EMS. Training includes:
 - Explanation of emsCharts
 - Discuss its capabilities and limitations
 - Demonstrate proper entry of sample chart
 - Utilizing sample charts, assist students with entry of charts into system
 - Note: for this portion, service must provide wireless access, as well as a computer for every 1-2 students (laptops with Internet Explorer work fine).

*** \$250 for 3 hour session provided at your station, including at least 2 facilitators.**

REVIEW OF SERVICE SET-UP

*** RVESCUE staff will meet with the leadership of your service, review current set up, and make recommendations for adjustments to settings to meet your agencies needs. This involves any or all of the following:**

- Reviewing current Service Configuration
- Reviewing current Service Code Files
- Setting up Service Users
- Entering Service Users Certifications & demographics*
- Making changes to current Service Code files*

*** \$50/hour, minimum \$250.**

Reach out to us today to let us know how we can assist your agency better prepare your responders for the implementation of emsCharts!
